CERTIFICATIONS

Front-End Web Development. (04/2022 - 05/2022)

(TCR INNOVATION)

PROJECTS

Develop Inventory Model For Cost Effectiveness (06/2022 - 01/2023)

- We developed **desktop application (tool)** that can give the right information about inventory.
- In this application, we gave an option for stock order management and also added a reordering calculator.
- We used **Core Java ,MySQL** for developing this software .
- This project was sponsored by **Reliance Infrastructure Limited**.
- [GitHub Link](#).

Chat Application

- The chat application project aims to create a user-friendly, interactive chat platform and integrated with **ChatGPT API**.
- It gives features such as audio chat, Group chat, and Media exchange.
- Programming Language use :- **C# , OpenAI API** .
- [GitHub Link](#).

Social Media Website With Theme Customization

- Created a website called Social Snap , which UI interface is similar to Facebook and Instagram.
- In this app, we can set multiple no of themes, font size of text, and colors according to our choice.
- Programming Language use :- **HTML , CSS, Javascript** .
